### Book Synopsis:

Gollancz is delighted to announce the acquisition of World Rights to a two-book space opera from John W. Campbell and Hugo-Award-winning author, Elizabeth Bear. Combining a unique concept with a compelling plot, Elizabeth Bear's novels imagine the invention of The White Drive: an easy, nonrelativistic means of travel across unimaginable distances. The gripping story follows salvage operators, Haimey Dz and her partner Connla Kurucz, as they pilot their tiny ship into the scars left by unsuccessful White Transitions, searching for the relics of lost human – and alien – vessels.
