Book Synopsis:

When Grant Hardy, Meltdown's lead singer, falls off the stage in the middle of a concert while under the influence, his record label has no choice but to step in and take control. The solution is simple. Send Grant to rehab and avoid a public relations nightmare by covering it up as a bad case of the flu. When the rehab facility's recommendation for extended treatment starts to affect the label's bottom line, they are forced to find an alternative solution – hire an in-house counselor for the duration of the tour. There's just one problem. Grant Hardy isn't an addict.
