## Book Synopsis:

A new standalone contemporary romance novel from USA Bestselling Author, Terri E. Laine. **Past and present intertwine with light and dark to tell a story ...Because of Him** Something inside me fiercely craves *normal*. Sheltered all my life and taught to be afraid, I want to be bold, fearless. Up until now I've kept myself and my heart safe. Tade Astor, a guy so hot he steals my breath away, jeopardizes it all. He isn't the kind of guy to give up on what he wants—**me**. He's determined to prove my safe world is missing something—**him**. Even though he may not be the cocky guy I assumed him to be...He's definitely not the guy I should give my heart to. But each time I see him, he becomes harder to resist. I want to be brave and give him a chance... though it might come back to haunt me. *At the heart of Because of Him is a love story. But due to certain sensitive topics, it might not be suitable for all readers.*
