### **Book Synopsis:**

The new East-West conflict, which broke out over the Ukrainian crisis in 2014, but which long predated it and soon spread through Europe and to the Middle East, is potentially the worst US-Russian confrontation in more than fifty years and the most fateful. A negotiated resolution is possible, but time may be running out. In this book, renowned Russia scholar and media commentator Stephen F. Cohen traces the history of this East-West relationship in the 'Inter Cold War' period the years from the purported end of the preceding Cold War, in 1990-1991, to what he has long argued would be a new and even more dangerous Cold War. Cohen's historical and contemporary analysis is insightful, thought-provoking and essential reading for anyone seeking to understand relations between the West and post-Soviet Russia."
