## Book Synopsis:

Collecting stories by Becky Cloonan:

1. **Wolves**As a lone hunter tracks an elusive beast through the forest, he reflects on his life and past love through a series of flashbacks, bringing the story to a climax that is as romantic as it is savage. This powerful short story begs for multiple read-throughs, never giving concrete answers, but (like the best enigmatic endings) leaves your own conclusions satisfying.
2. **The Mire**On the eve of a great battle, a humble squire is tasked with delivering a letter to a seemingly abandoned castle at the heart of an ill-famed swamp. Met with mysterious apparitions on the way, he slowly unveils the truth behind his journey as his past is re-written over the course of the story.
3. **Demeter**A fisherman's wife tends the garden and animals while her husband is at sea, but secrets buried under the waves begin to bubble to the surface revealing a secret treachery and forgotten truth.

The third and final book in a trilogy of critically acclaimed stand-alone stories by award winning creator Becky Cloonan.
