

DOWNLOAD Frayed Silk by Ella Fields [KINDLE]

Book Synopsis:

Our marriage wasn't just in trouble—mere threads were all that held it together. What was once my perfect happily ever after had dissolved right before my eyes. I can tell you when it started to happen. What I can't tell you is why. And after seven months of watching my husband turn into someone I didn't recognize, I'd given up hope in finding answers. So I decided to break his heart... and he did nothing to stop me. **Trigger warning:** *This book contains cheating and other sensitive subject matter.*
