Book Synopsis:

Cass may be in grave danger. She's eaten the dreaded Time Travel Chocolate--and you know what *that* means. I won't even begin to tell you what trouble this delicacy has caused in the past. If only Cass could leave the past behind! But it appears she is literally stuck in it. Meanwhile, Max-Ernest is worried for his best friend. Can our expert hypochondriac diagnose Cass's condition before it's too late? And will he have what it takes to save the survivalist? For Max-Ernest, it's a race against time; for Cass, a race through it. For the rest of you, well, it's a race to find out what happens next, of course. But proceed with caution, and be sure to read carefully because...this isn't what it looks like.
