Book Synopsis:

Tiny is homeless. Nola has everything she could ask for. They meet when Nola is forced into volunteer work for the writers' group at the homeless shelter where Tiny is staying, and at first it seems impossible that two people who are so different could ever be friends. But despite her initial prejudice, Nola quickly learns that there isn't much separating her from the people who live on the streets. And Tiny begins to see that falling down doesn't mean you never get back up. *Because of You* is a story about homelessness, prejudice and the power of words to provide a little hope. At its heart is the friendship between Tiny and Nola, and how this relationship changes both girls at the core. Pip Harry doesn't shy away from some heavy topics—Tiny's story is heartbreaking and the details about life on the streets of Sydney is horrifying—but *Because of You* is ultimately a hopeful story about human resilience and the life-changing power of discovering your best friend. YA readers aged 14 and up who loved John Larkin's *The Shadow Girl* and Cath Crowley's *Words in Deep Blue* should be diving for this powerful coming-of-age story.
