Book Synopsis:

Nothing will be the same for Sophie Beaumont. Now that she's an Alpha she has to learn to be a leader. But unlike with Caeden, it doesn't come naturally for her. Sophie doesn't want to tell her friends how high to jump. She just wants to be normal. Caeden and Sophie travel to Germany to meet with Sophie's parents in the hopes of learning more about being mates and "why them?" But Sophie's parents prove not to know much. Everything is just speculation. Then, the news of Peter Grimm's murder sends the Williams' pack into a tailspin. With Travis as Alpha what is he capable of?
