### Book Synopsis:

What is happening to us? I've asked this question a thousand times, but there is no answer. I was a normal teenager, trudging my way through senior year with my best friend. Then a boy named Kyle Spencer came to Idaho Falls, and since then everything has fallen apart. Something mysterious has passed among the three of us. We've developed terrifying abilities—strange powers that separate us from normal people. Even worse, someone—or something—has taken a deadly interest in us. We never know when they are going to strike, or how to protect ourselves. We don't even know who they are. All we know is that they want one of us alive, and we don't know who. The others they want dead. Which will I be?
